"Life without music would be a mistake."

Marv Machura is a popular performer in the Okanagan and Southern Interior of BC bringing live music to festivals, events, pubs, resorts, wineries, companies, homes, art galleries, and just about everywhere that live music is used to lift the experience up and beyond ordinary.

He performs either solo or with members of his band (The Marv Machura Band). With an incredibly diverse repertoire that ranges from rock to blues to country and folk, Machura suits his shows to his audiences and engages them in the moment with his infectious love of music and performance as well as his friendly, down-home style of singing and playing.

Machura has often been compared to singer-songwriters like John Denver, Gordon Lightfoot, Steve Earle, Bruce Springsteen, John Cougar, Ian Tyson, Lyle Lovett, Neil Young, Neil Diamond, and others--and indeed, Machura regularly covers many songs by these and other similar rock, country, blues, and folk artists. It's rare that Machura cannot play a request of classic songs from any decade going back to the 50s and continuing with some new artists like Adelle or Passenger.

For classic songs and authentic, genuine live-music up-lifting experience, Marv Machura Music delivers it--no gig is too small or too big. **Call today for more live music booking information. 250-307-1505.**
